Sir,

Re: Surface Drainage Scheme of Robertsonpet, K. G. F..

1) Adverting to correspondence ending with Government Order No. L. 8409-11/ L. B. 68-45-2 dated 20th February 1946, sanctioning the revised estimate for Rs. 22,030/- for the first stage of the surface drainage scheme for Robertsonpet area (against the comprehensive scheme for Rs. 95,000/- sanctioned by Government in their Order No. L. 560-4/ L. B. 79-42-2 dated 12th July 1943), I have the honour to forward herewith, a further estimate for Rs. 23,625/- received from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, with his letter No. 547 dated 12th December 1946, towards the second stage of the said work, with the relative plan, for favour of early sanction of Government to the same. A copy of the Board's resolution thereon to the effect that the estimate may be countersigned and submitted to Government for sanction, is also enclosed for reference.

2) As regards the question of meeting the cost of the second stage of the work, I wish to add that so far, the Board have paid to the credit of the Sanitary Engineer, a sum of Rs. 16,000/- (in two instalments) and including the sum of Rs. 8,000/- to be paid by the Board this year after the above estimate is sanctioned by Government, the Board will have paid Rs. 24,000/- in all by way of their contribution towards the work. Regarding the proportionate Government contribution, it may be added that the first instalment of Rs. 8,000/- was drawn by this office and credited to the Sanitary Engineer's account during

during the year 1943-44 itself. A bill for an equal sum due towards the second instalment was sent to the Comptroller during 1945-46 and he wrote to say that the Sanitary Engineer may carry out the work and account for the Government share of the expenditure for the work in his divisional accounts under " 30. grants for public improvements. 3. Improvements to Towns etc.; ". The balance of the proportionate share of Government grant for the work (2nd stage) will be Rs. 16,000/-. I request that the Sanitary Engineer may be kindly authorised to incur expenditure to the extent of Rs. 16,000/- this year from out of the Town Improvement grant, the balance of the estimated amount being met out of the contribution of Rs. 8,000/- to be paid by the Board this year.

3) With a view to avoid delay, I am requesting the Sanitary Engineer to arrange for calling for tenders etc., so that the work might be put in hand, as soon as Orders of Government sanctioning the estimate are received.

I have the honour to be..
Sir,
your most obedient servant,
